2012	(DP)	4500/5500 CAB CHASSIS
2012	(DD)	(MEXICO) REG CAB CHASSIS

DISCUSSION:

Starting in 2012 model year radios will come equipped with an anti-theft feature. Once a radio is installed in a vehicle, it learns the vehicle's VIN and cannot be used in another vehicle unless an anti-theft code is applied.

PROCEDURE TO OBTAIN ANTI-THEFT CODE:

1. Call 1-800-448-0944
2. Request anti-theft code.
3. State dealer code.
4. State radio serial number.
5. State VIN
6. The 4-digit anti-theft code will be provided.

NOTE: Radio anti-theft code call center support is available from 8:00 am to 8:00 pm Eastern Time Monday through Friday.

RADIO ANTI-THEFT CODE PROCEDURE

1. Ignition in the run position.
2. Press the ON/VOL control.
3. The word **CODE** or **Please enter Anti-Theft Code** will appear on the display.
4. Enter the 4-digit code by pressing the corresponding preset buttons in sequence.

NOTE: If three successive attempts are made to enter an invalid anti-theft code the radio will enter a 'WAIT' state. While in this state the radio display will read 'WAIT'. To exit the 'WAIT' state the radio must remain powered with the ignition in the run position for a continuous 30 minutes (the vehicle may be driven during this time). After exiting the 'WAIT' state the radio will again display 'CODE' and a valid anti-theft code may be entered.
